Tamil Nadu is one of the most industrialized states with diversified industries in India.

The state has a thriving automotive sector, chemicals, textiles, small and medium engineering, IT, Electricals and Engineering and so on.

The state also has a robust electronics manufacturing ecosystem with major players like Samsung, LG, and Foxconn having established their presence in the state

In this scenario, we bring this State Directory of Tamil Nadu Directory 2025, which is an attempt to profile the industries, manufacturing facilities and companies in Tamil Nadu, with their company profile, expansion plans etc., along with details of key personnel, address, tel/fax/email etc.,.

The directory covers all manufacturers in the above mentioned states covering sectors like Cement, Food, Engineering, Textiles etc.,

Overview

Tamil Nadu is one of the most industrialized states in India with a diverse range of manufacturing industries ranging from automobiles, electronics, textiles, pharmaceuticals, chemicals, and petrochemicals. The state's strategic location on the east coast of India, well-developed infrastructure, abundant natural resources, and favourable business climate make it an attractive destination for industrial investment.

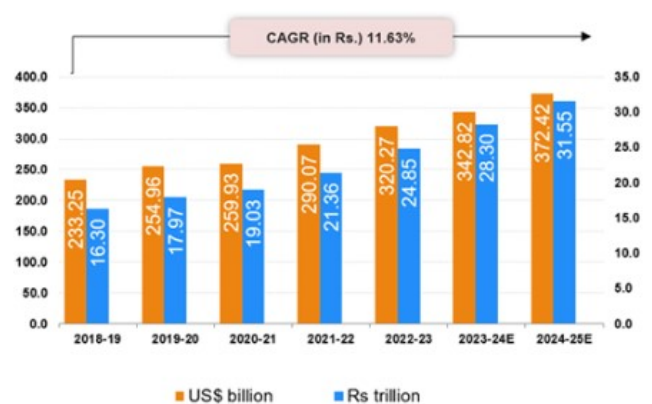

The industrial climate of Tamil Nadu has been consistently improving over the years with the state government's proactive policies and initiatives to promote industrial growth. The state government has set up various industrial parks and special economic zones (SEZs) across the state to provide a conducive environment for businesses to thrive. The state's ease of doing business ranking has also improved significantly in recent years, making it easier for businesses to set up and operate in the state.

Tamil Nadu's industrial sector offers a plethora of business opportunities across various sectors. The state's automobile industry is one of the largest in India, with companies like Hyundai, Ford, Renault Nissan, and BMW having set up their manufacturing plants in the state. The state also has a robust electronics manufacturing ecosystem with major players like Samsung, LG, and Foxconn having established their presence in the state. The textile industry is another major sector in Tamil Nadu, with the state accounting for around 45% of India's total textile exports.

In addition to these established industries, Tamil Nadu also offers immense potential for future industrial prospects. The state's renewable energy sector is poised for significant growth, with the government's focus on achieving a target of 9,000 MW of solar power by 2023. The state also has a thriving IT and software industry, with Chennai being one of the major IT hubs in India. The government's efforts to promote start-ups and entrepreneurship are expected to further boost the state's IT industry in the coming years.

Another potential growth area for Tamil Nadu is the food processing industry, with the state's rich agricultural resources and diverse cuisine providing ample opportunities

for food processing businesses. The state's tourism industry is also expected to witness significant growth in the coming years, with the government's focus on promoting eco-tourism and heritage tourism.

In conclusion, Tamil Nadu's industrial climate is conducive to business growth and offers a diverse range of opportunities across various sectors. With the government's focus on promoting industrial growth and ease of doing business, the state is well-positioned to attract more investment and further strengthen its position as a leading industrial state in India.

**About the Company**

A1 Chips and Exports (India) Private Limited (ACEIPL) was initially established in the name of A1 Chips, commenced as a partnership concern in 1983 by Mr. S. Rajan, Mr. S. Damodharan and Mr. S. Murali for manufacturing and retailing of chips and snacks variety in Coimbatore, Tamil Nadu. In order to venture into export in 1999, the promoters started separate concern, A1 Exports as a partnership concern. In 2007, both the concerns were merged and incorporated as a private limited company in the name of ACEIPL. ACEIPL is engaged in the manufacturing of around 430 variety of snacks which includes banana chips, potato chips, tapioca chips, mixtures etc. and around 65 variety of sweets in its state of art facility (spread over 35,000 sq. ft.) located in Pacchapalayam, Kalampalayam post, Perur. The facility is housed with modern kitchen equipment for mass production and obtained ISO standard certification. The plant has a bio gas plant with a power generation capacity of 40 kVA (kilovolt-amperes) which produce 8-10 hours of power per day required for plant 3 from vegetable waste. ACEIPL operates through 16 branches, of which 12 branches within Coimbatore, 2 branches at Palakkad and one each at Tirupur and Pollachi to sell their products under the brand name "A1 CHIPS". ACEIPL also exports its products to United Arab Emirates, Doha, Singapore, Australia, South Africa, USA etc. ACEIPL also supplies its products on wholesale all over India through ~75 distributors.

**About the Company**

A Arunachalam & Co was incorporated in the year 1997. It is a family run organisation managed by Mr. A. Arunachalam Chettiar. The company is headquartered in Kangeyam near Dindugul in Tamil Nadu. The ghee making process can be done in various methods namely indigenous (Desi) method, direct cream method, creamery butter method, pre-stratification method and continuous methods. AAC uses melting vat and mechanical clarifier which it claims retention of more Vitamin A in the product. The company also exports its dairy products to Singapore, Bahrain, Dubai and United Arab Emirates.

**About the Company**

A G Industries is manufacturer of plastic auto components with injection moulded parts. The company is a part of the Hero Group with 100% shareholding of family members. The company was established in 1993 and is now one of the top 50 manufacturers in this category in the world.

It has recently set up another new manufacturing facility at Bawal through a group company - GMAX. The Gurgaon plant was started in 1993; Manesar plant in 2002 and the plant in Haridwar was started in 2008 to cater to the HMCL's Haridwar plant. AGPL is the primary supplier of large injection molded plastic parts to HMCL and caters to all the three manufacturing facilities of the OEM

The company has entered into manufacturing of Air Bag covers with technical assistance from K.D Corporation (Korea) . The safety plastic components manufactured by the company, are being used in the cars of Maruti Suzuki, Ford, Tata, Nissan and many others in the export markets through Tier I suppliers like Autoliv India & Mann and Hummel.
